I would like the opportunity to work for a successful startup revolutionizing the financial institution industry and help push it towards further future successes. I want to gain experience in a company where my work can make a noticeable impact on the company at large. I would like to leverage current skills in development and further improve them through projects and learning from peers.

EXPERIENCE

NOVEMBER, 2017 – PRESENT

ACCOUNT MANAGER, CLICKSWITCH

Support and advise over 150 clients (Financial Institutions) as it relates to the ClickSWITCH application. I also help implement our product with new clients; this involves setting up their portal, integrations, and training management. I have also helped write code for internal processes, ie. Email automation.

MAY, 2017 – NOVEMBER, 2017

OPERATIONS SPECIALIST, CLICKSWITCH

Worked mainly in data entry and research. Would research and add new companies to our database (billers, depositors)
